

Prestige Has a New Face

Prestige has a new face and we are excited to introduce to you new packaging, new designs, new displays and lots of new products. We are now offering socks in a 3 pack as well as single packaging. We have Made in America beaded lanyards from local artists. We are supporting green products and devoting pages in our catalog to eco friendly products. We are designing collections that will make gift giving easy for retail customers. Look for our new catalog in March.
